

Front-end Developer

Ivan R.

Vue.js

HTTP

Tailwind

Git

jQuery

UI/UX

Total coding experience: **10 year**

As an experienced front-end web developer with over a decade of experience, I have a robust portfolio that demonstrates my proficiency in web development. As a result of my commitment to the delivery of top-notch quality, I specialize in finding the optimal balance between time and budget for each project. I will communicate when an assignment is beyond my expertise, or suggest ways to save time and money, even if this means I will bill less hours.

Professional Skills:

- Proficient in converting Sketch, Photoshop, Zeplin, Adobe XD, and Figma designs to responsive HTML semantic web pages. Skilled in styling with plain CSS or modular SCSS, adept at utilizing modern CSS frameworks or working without them.
- Advanced expertise in HTML4 and the latest HTML5 standards, along with a strong command of CSS/CSS3 using the BEM methodology. Well-versed in Less, Sass, and experienced in utilizing the latest CSS features such as grid, flexbox, animation, SVG, and more.
- RWD with a mobile-first approach, front-end SEO performance optimization
- Experience with ES2015+/ES6 and up to date with the newest ECMAScript specifications
- Git experience
- Advanced knowledge of JS (Vanilla JS, not just jQuery) and JS frameworks/libraries like Vuex, Vuetify, Vue Bootstrap, Vue Material, Angular JS, Svelte JS
- Highly proficient in WordPress development, showcasing a deep understanding of the platform. This expertise naturally extends to an intimate knowledge of PHP, contributing to a comprehensive skill set in web development.
